Theme 1 : Questions: Lesson 2

First: Put the word (true) or the word (false) in front of the following statements:

1. Flash memory use to store, transfer and share information. ()
2. The HDMI interface is a cable that connects your computer to a router. ()
3. Ethernet Cable is a cable that transmits audio and video from/to devices. ()
4. To solve problem *Home internet connection not working*, use Ethernet. ()
5. Bit is the smallest unit of measure for storing data. ()
6. Problem *Trouble processing large files you can solve it by Shut down some Apps*. ()
7. A gigabyte is a unit of measurement equal to 1024 megabytes. ()

Second: Choose the correct answer from the following:

1. It is like a hdd, but much faster.
a- External hard disk drive b- Flash memory c- Ethernet port
2. a device that connects a computer to the internet via Wi-Fi or ethernet.
a- External hard disk drive b- Router c- Ethernet port
3. It is unit of measures the speed of a network or internet connection.
a- Mbps b- GHz c- Byte
4. one of accessories computer devices that are used for storage
a- The printer uses software b- Wi-Fi c- Flash Memory
5. To write the word "apple", you need to represent it in a computer.
a- 5bits b- 5Bytes c- 8bits
6. It is used to connect your computer or laptop to the router
a- Ethernet cable b- Router c- Hard drive
7. It Potential reason for A poor video- conference Connection.
a- Slow wireless internet connection b- Not enough space
c- connection interrupted
8. Gigabyte is
a- 1.024 byte b - 1.024 GB c- 1.024 KB d- 1.024 MB

Theme1 Questions: Lesson 3

First: put (true) or (false):

1. Computer networks are computers connect to each other to share information. ()
2. LAN is a network that connects computers all over the world. ()
3. Wi-Fi devices allows smartphones to access the Internet. ()
4. WWW is not part of the Internet. ()
5. Open networks be accessible to all. ()
6. The EKB is available for free to all Egyptians. ()
7. The intranet is an open network such as business or school. ()

8. To connect a computer to the Internet, a gateway must be used.

Second: Choose the correct answer from the following:

- 1- Its computers connect to each other, to share important information and data.
a- computer networks b- computer components c- input devices
- 2- it is a network that connects computers and people from all around the world.
a- internet b- intranet c- local network
- 3- a long connector that transmits data or power between devices.
a- cable b- router c- the gate
- 4- which is a large set of web pages that are linked to each other using hyperlinks.
a- WWW b- internet c- local network
- 5- it is another type of network unlike internet,
a- internet b- WWW c- intranet
- 6- The Internet is network
a) Closed b) open c) limited
- 7- The router is
A- browsers B- Anti-virus C- Internet gateway
- 8- Available for free to all Egyptians registered on the site.
a- EKB b- wiki c- twitter
- 9- it is an abbreviation for the World Wide Web.
a- WWW b- NET c- COM

Theme1 : Questions: Lesson 4

First: Put (true) or (false) :

- 1- Our phone used to send text or buy something. ()
- 2- Can't take online lessons. ()
- 3- Home appliances connected to the Internet can be turned on and off. ()
- 4- Using screen readers, for audio feedback, to help **people of determination** with reading braille. ()
- 5- Digital Washing machine is an example is the Internet of Things. ()

Second: Choose the correct answer from the following:

- 1- Businesses use networks to share private information.
a- closed b- public c- local
- 2- Businesses use networks to share public information.
a- closed b- open c- local
- 3- consists of Household linked to the internet via Wi-Fi.
a- internet b- IOT c- Bluetooth
- 4- It is a networking technology that connects wireless mobile devices over a short range.
a- internet b- IOT c- Bluetooth

5- Buying and selling goods, items and services online, means:

a-Video conference

b-E-commerce

c-Data sharing

Theme1 : Questions Lesson5 الدرس الخامس

First: Put (true) or (false):

- 1- Fred uses video conferencing to share his discoveries with his colleagues.()
- 2- Following a process when troubleshooting will not help you find different ways to solve problems. ()
- 3- To solve the problem *computer slows down when opening an app*, Delete this app. ()
- 4- Checking your WIFI signal is one potential solution to a slow browser or search engine.()
- 5- You can't solve any problem that may appear to us while using the computer. ()

Second: Choose the correct answer from the following:

- 1- Following a process when troubleshooting will help you
 - a- Not solving the problem.
 - b- Solving the problem,
 - c- complicating the problem.
- 2- The first steps to solving the problem is
 - a- Identify the problem,
 - b- Go through your potential solutions to the problem,
 - c- Think about and plan different ways you might solve the problem.
- 3- To solve the problem of no internet connection.
 - a- Update apps
 - b- Find the file
 - c- try a new ethernet cable
- 4- to solve Computer slows down problem
 - a) Update applications
 - b) restart the computer
 - c) check Wi-Fi signal
- 5- when you deleted unwanted files that cause.....
 - a) Slow devices
 - b) quick devices
 - c) update programs
- 6- when Browser or search engine run slowly.....
 - a) connect printer
 - b) Wi-Fi signal
 - c) connect screen
- 7- one of the solution of slow loading is
 - a) restart the computer
 - b) download programs
 - c) update programs
- 8- One of the common problems of a computer.
 - a) no internet connection
 - b) scanner
 - c) printer

Theme1 question : Lesson 6

First: Put (true) or (false) :

- 1- QR code with the help and easy access to information. ()
- 2- The main folder is created in any volume to manage files. ()
- 3- The operating system does not allow you to add a subfolder inside main folder. ()
- 4- Choose New from File to create a new folder. ()
- 5- File management on the computer is limited to video clips only. ()
- 6- Data must be organized on the computer for easy retrieval. ()
- 7- To create a new folder, click the Rename command. ()
- 8- The printer is used to enter pictures and files on the device. ()

Second: Choose the correct answer from the following:

- 1- used to save the images and use them later.
a- the scanner b- the printer c- the microphone
- 2- To store and share information we use
a- Scanner b- Printer c- Flash Memory
- 3- To open a folder, choose
a- Open b- Folder c- New
- 4- Select from the shortcut menu to create a new folder
a) Past b) New c) Copy
- 5- it is used to organize files.
a) file b) folder c) document
- 6- it helps us to a access information by scanning it with a phone camera.
a-Browser b- QR Code. c- Digital books.

Theme1 question : Lesson 8

First: Put (true) or (false):

1. Intranet is less secure than internet. ()
2. Intranet is more Secure than Internet. ()
3. Excel can sort the info alphabetically. ()
4. To set formula, select the cell, then type the +. ()
5. Reference the letters (down of columns). ()
6. The / symbol is used to perform division in Excel. ()
7. Graph or Chart can be created through the Excel program. ()
8. The "Sort" is used to arrange information alphabetically. ()
9. Excel is limited to addition and subtraction operations only. ()

Second: Choose the correct answer from the following:

1. You want to subtract the values in columns A, C, E from row 9. write formula ...
 a- $A6 - C6 - E6$ b- $A9 - C9 - E9$ c- $A9 - C9 - E9 =$
2. You want to sum the values in columns A, B and C of row 4, write formula ...
 a- $A4 + B4 + C4$ b- $A5 + B4 + C4 =$ c- $A4 - B4 - C4$
3. the cell in excel program may contain text and
 a- Numbers b- Formula c- All of the above
4. It's a network that we used to share information and less secure.
 a) Mail b) internet c) intranet
5. we useprogram to create graphs and functions.
 a) Word b) excel c) PowerPoint
6. To sort the information alphabetically in excel program go to
 a) Tool bar b) copy c) cells
7. sharing information throw the internet web.....
 a) More secure b) less secure c) unreliable
8. To create function using excel program w select a cell and start with
 a) Quotations b) = c) ()
9. we use program to create a simple function,
 a) Word b) zoom c) excel
10. it is used to create graphs.
 a- Excel b- Word c- Zoom

Theme2 question : Lesson 2

First: Put (true) or (false) :

1. You should not sign up for a website if it asks for too much personal information. ()
2. It is difficult to back up your photos with your external hard drive. ()
3. You must be careful when interacting with new people online. ()
4. Antivirus software must be installed on your devices. ()
5. The hard disk is always smaller than the flash memory ()
6. To keep your personally identifiable information safe, keep your devices updated regularly. ()
7. It is not recommended to use antivirus software on your devices . ()
8. To keep the security of your information, you must limit your personal identifiable information online. ()
9. External hard disk drive is used to store large files. ()
10. We should enter the websites that asked me a lot of personal information. ()
11. We can't make back up the files. ()
12. Protecting files and saving them on devices is not important. ()
13. Strong passwords must contain letters and numbers only. ()

Second: Choose the correct answer from the following:

- 1- Such as: (your name, address, date of birth and your passwords).
a- General information b- Personally identifiable information
c- Information of a member of your family.
- 2- They use the Internet to break into computer systems and steal personal information.
a- Hackers b- programmers c- data entry
- 3- To keep your data safe, use programs on all your devices.
a- Viruses b- Antivirus c- Photo editing
- 4- Make sure that your devices and applications are regularly.
a- update b- delete c- reinstall
- 5- we can make back up by using
- a- Flash b- External hard disk c- Both
- 6- you can protect your files from virus or losing by.....
- a) Close the computer b) back up c) personal information
- 7- he try to get your bank account for adult to steel his money.....
- a) Teacher b) hacker c) one of your family
- 8- hackers can send.....
- a) gift b) virus c) prize
- 9- use apassword for different websites to protect information.
- a) similar b)week c)different

Theme2 question : Lesson 3

First: Put (true) or (false) :

1. Hackers can only get your password in one way only. ()
2. A message telling you that you have won a prize and asking for your bank account is phishing. ()
3. One type of phishing is one that encourages you to act quickly. ()
4. Phishing messages cannot be recognized. ()
5. If the password was previously used, the password manager will tell you that. ()
6. Password manager software used to Create strong passwords. ()
7. Phishing is sending an email message to steal your data. ()

Second: Choose the correct answer from the following:

- 1- It is sending a message via e-mail that looks real, but isn't
a- Phishing b- Viruses c- Multi-factor authentication
- 2- When an attachment **Phishing message** is opened software is
a- delete b- update c- installed.

- 3- Phishing messages can be identified by
 a- it is free from misspelled words b- it contains misspelled words
 c- the accuracy of its content
- 4- The password manager used to create Passwords.
 a- strong b- weak c- repetitive
- 5- Passwords can be strengthened by
 a- antivirus software b- web browsers c- multi-factor authentication
- 6- one example of phishing is
 a) message from father b) message that tell you won a prize
 c) message from friends
- 7- received message from an unknown person asking you for your info to get a prize in one of types
 a- internet b- phishing c- password manager
- 8- Multi-factor authentication is the provision of at least to identify the user himself.
 a- one way b- two ways c- three ways
- 9- Smishing is the same thing as Phishing, but it is sent by.....
 a- E-mail b-Text message c-Facebook

Third : Choose the correct answer from the brackets:

(Phishing - Password managers - multi-factor authentication)

- 1- To strengthen passwords.
 2- One of the ways hackers use to get passwords.
 3-tells you if one of your passwords has been stolen online.

Theme2 question : Lesson 4

First: Put (true) or (false):

1. All phishing sites operate on the same principles. ()
2. Protocol determines how the information will be transferred. ()
3. Resource Name is the web server, or site, being requested. ()
4. A reliable source will be well-written, with almost no mistakes. ()
5. All websites are scam sites, including online shopping sites. ()
6. All the information you get from the internet is correct and reliable. ()
7. You can access the website by typing the address (URL). ()
8. Scam sites can hack into my computer. ()
9. You must avoid the scam website. ()
10. There is a child help hotline. ()

Second: Choose the correct answer from the following:

- 1- Websites that present fake situations that try and get your information
 - a- Scam websites
 - b- trusted websites
 - c- educational websites
- 2- Website offers you a prize that never comes.
 - A- Online shopping sites
 - B- Sweepstakes Scam
 - C- Scareware websites
- 3- The URL begins with
 - A- Resource
 - B- protocol
 - C- file path
- 4- The last part of the URL is
 - A- Resource Name
 - B- protocol
 - C- file path
- 5- It shows who owns that space or website.
 - A- Resource Name
 - B- protocol
 - C- file path
- 6- we can know the website from it's the address of the website.
 - a) Facts
 - b) URL
 - c) blogs
- 7- If you are a victim of call the child helpline.
 - a) Scam website
 - b) government website
 - c) educational website
- 8- one of is sending messages from unknown person to ask about your information to win a prize.
 - a) Internet
 - b) scam website
 - c) password manager
- 9- the scam website to collect.....
 - a) Personal computer
 - b) (URL)
 - c) personal information
- 10- he try to get your bank account for adult to steel his money.....
 - a) Teacher
 - b) hacker
 - c) one of your family
- 11- - If you fall victim to a scam website, you should.....
 - a- report it
 - b- give your personal data
 - c- give your parents' data
- 12- Uniform resource locator is
 - a- Facts
 - b- URL
 - c- Opinions
- 13- hackers can send.....
 - a) gift
 - b)virus
 - c)prize
- 15) Resource Name often ends with
 - a) .Com
 - b) .Gov
 - c) All the above

Theme2 question : Lesson 5

First: Put (true) or (false) :

- 1- Copyright law cover both print and digital content. ()
- 2- Copyright cover images, music, movies, games, computer software, websites. ()
- 3- Copyright law does not cover images and artwork. ()
- 4- Copyright law does not cover both print and digital content. ()

- 5- Copyright means using any creative work from the Internet without the permission of its owner. ()
- 6- To share any post for someone you must ask their permission before posting. ()
- 7- Copyright does not cover your works. ()
- 8- You can take anyone's work and write your name on it. ()

Second: Choose the correct answer from the following:

- 1- copyright for a website is usually at the of the home page.

Theme 1 : Questions: Lesson 2

First: Put the word (true) or the word (false) in front of the following statements:

1. Flash memory use to store, transfer and share information. (t)
2. The HDMI interface is a cable that connects your computer to a router. (f)
3. Ethernet Cable is a cable that transmits audio and video from/to devices. (f)
4. To solve problem *Home internet connection not working*, use Ethernet. (t)
5. Bit is the smallest unit of measure for storing data. (t)
6. Problem *Trouble processing large files you can solve it by Shut down some Apps*. (t)
7. A gigabyte is a unit of measurement equal to 1024 megabytes. (t)

Second: Choose the correct answer from the following:

1. It is like a hdd, but much faster.
a- External hard disk drive b- Flash memory c- Ethernet port
2. a device that connects a computer to the internet via Wi-Fi or ethernet.
a- External hard disk drive b- Router c- Ethernet port
3. It is unit of measures the speed of a network or internet connection.
a- Mbps b- GHz c- Byte
4. one of accessories computer devices that are used for storage
a- The printer uses software b- Wi-Fi c- Flash Memory
5. To write the word "apple", you need to represent it in a computer.
a- 5bits b- 5Bytes c- 8bits
6. It is used to connect your computer or laptop to the router
a- Ethernet cable b- Router c- Hard drive
7. It Potential reason for A poor video- conference Connection.
a- Slow wireless internet connection b- Not enough space
c- connection interrupted
8. Gigabyte is
a- 1.024 byte b- 1.024 KB c- 1.024 MB

Theme1 Questions: Lesson 3

First: put (true) or (false):

1. Computer networks are computers connect to each other to share information. (t)
2. LAN is a network that connects computers all over the world. (f)
3. Wi-Fi devices allows smartphones to access the Internet. (t)
4. WWW is not part of the Internet. (f)
5. Open networks be accessible to all. (t)
6. The EKB is available for free to all Egyptians. (t)
7. The intranet is an open network such as business or school. (f)

8. To connect a computer to the Internet, a gateway must be used. (t)

Second: Choose the correct answer from the following:

- 1- Its computers connect to each other, to share important information and data.
a- computer networks b- computer components c- input devices
- 2- it is a network that connects computers and people from all around the world.
a- internet b- intranet c- local network
- 3- a long connector that transmits data or power between devices.
a- cable b- router c- the gate
- 4- which is a large set of web pages that are linked to each other using hyperlinks.
a- WWW b- internet c- local network
- 5- it is another type of network unlike internet,
a- internet b- WWW c- intranet
- 6- The Internet is network
a) Closed b) open c) limited
- 7- The router is
A- browsers B- Anti-virus C- Internet gateway
- 8- Available for free to all Egyptians registered on the site.
a- EKB b- wiki c- twitter
- 9- it is an abbreviation for the World Wide Web.
a- WWW b- NET c- COM

Theme1 : Questions: Lesson 4

First: Put (true) or (false) :

- 1- Our phone used to send text or buy something. (t)
- 2- Can't take online lessons. (f)
- 3- Home appliances connected to the Internet can be turned on and off. (t)
- 4- Using screen readers, for audio feedback, to help **people of determination** with reading braille. (t)
- 5- Digital Washing machine is an example is the Internet of Things. (t)

Second: Choose the correct answer from the following:

- 1- Businesses use networks to share private information.
a- closed b- public c- local
- 2- Businesses use networks to share public information.
a- closed b- open c- local
- 3- consists of Household linked to the internet via Wi-Fi.
a- internet b- IOT c- Bluetooth
- 4- It is a networking technology that connects wireless mobile devices over a short range.
a- internet b- IOT c- Bluetooth

5- Buying and selling goods, items and services online, means:

a-Video conference

b-E-commerce

c-Data sharing

Theme1 : Questions Lesson5 الدرس الخامس

First: Put (true) or (false):

- 1- Fred uses video conferencing to share his discoveries with his colleagues.(t)
- 2- Following a process when troubleshooting will not help you find different ways to solve problems. (f)

- 5- You can't solve any problem that may appear to us while using the computer. (f)

Second: Choose the correct answer from the following:

- 1- Following a process when troubleshooting will help you
 - a- Not solving the problem.
 - b- Solving the problem.
 - c- complicating the problem.
- 2- The first steps to solving the problem is
 - a- Identify the problem.
 - b- Go through your potential solutions to the problem,
 - c- Think about and plan different ways you might solve the problem.
- 3- To solve the problem of no internet connection.
 - a- Update apps
 - b- Find the file
 - c- try a new ethernet cable
- 4- to solve Computer slows down problem
 - a) Update applications
 - b) restart the computer
 - c) check Wi-Fi signal
- 5- when you deleted unwanted files that cause.....
 - a) Slow devices
 - b) quick devices
 - c) update programs
- 6- when Browser or search engine run slowly.....
 - a) connect printer
 - b) Wi-Fi signal
 - c) connect screen
- 7- one of the solution of slow loading is
 - a) restart the computer
 - b) download programs
 - c) update programs
- 8- One of the common problems of a computer.
 - a) no internet connection
 - b) scanner
 - c) printer

Theme1 question : Lesson 6

First: Put (true) or (false) :

- 1- QR code with the help and easy access to information. (t)
- 2- The main folder is created in any volume to manage files. (t)
- 3- The operating system does not allow you to add a subfolder inside main folder.(f)
- 4- Choose New from File to create a new folder. (f)
- 5- File management on the computer is limited to video clips only. (f)
- 6- Data must be organized on the computer for easy retrieval. (t)
- 7- To create a new folder, click the Rename command. (f)
- 8- The printer is used to enter pictures and files on the device. (f)

Second: Choose the correct answer from the following:

- 1- used to save the images and use them later.
a- the scanner b- the printer c- the microphone
- 2- To store and share information we use
a- Scanner b- Printer c- Flash Memory
- 3- To open a folder, choose
a- Open b- Folder c- New
- 4- Select from the shortcut menu to create a new folder
a) Past b) New c) Copy
- 5- it is used to organize files.
a) file b) folder c) document
- 6- it helps us to a access information by scanning it with a phone camera.
a-Browser b- QR Code. c- Digital books.

Theme1 question : Lesson 8

First: Put (true) or (false):

1. Intranet is less secure than internet. (f)
2. Intranet is more Secure than Internet. (t)
3. Excel can sort the info alphabetically. (t)
4. To set formula, select the cell, then type the +. (f)
5. Reference the letters (down of columns). (f)
6. The / symbol is used to perform division in Excel. (t)
7. Graph or Chart can be created through the Excel program. (t)
8. The "Sort" is used to arrange information alphabetically. (t)
9. Excel is limited to addition and subtraction operations only. (f)

Second: Choose the correct answer from the following:

1. You want to subtract the values in columns A, C, E from row 9. write formula ...
 a- $= A6 - C6 - E6$ b- $= A9 - C9 - E9$ c- $= A9 - C9 - E9 =$
2. You want to sum the values in columns A, B and C of row 4, write formula ...
 a- $= A4 + B4 + C4$ b- $A5 + B4 + C4 =$ c- $= A4 - B4 - C4$
3. the cell in excel program may contain text and
 a- Numbers b- Formula c- All of the above
4. It's a network that we used to share information and less secure.
